## Checklist for Online Video Training Sessions

- Make sure you have high speed internet or unlimited cell data if using a cell phone.
- You can use a laptop, tablet or smartphone. Make sure you have a webcam
- Clear out an area for you and your dog to work in based on trainer recommendations. Carpeting or a rug is best.
- Get your treat bag, and your clicker if you will be using one.
- Let everyone at home know your lesson is about to start and how long it will be.
- Click the Zoom link in the email your trainer sent you.
- Test your audio and video before the lesson begins
- Now all that's left is the training and learning during your lesson!
